

### **Help for Scientific Reviewers :**

- Please connect to your EMIR User's space :
- Then access to the space : « Proposals to be reviewed ».
- By clicking on the « review » button you access to the popup windows where you can write your scientific review.

If necessary you can find more help at <http://emir.in2p3.fr/help>

- To help you in the redaction you can reply to the next questions :

### **Proposal ID / Proposal title**

Please try to address the following questions in your report:

1. What are the objectives of the proposal? How would you rank the scientific merit of these objectives?
2. Does the proposal offer a well-reasoned and rational plan for carrying out the proposed experiment(s)? Are the investigators well positioned to carry out this plan?
3. Do the proposed experiments take advantage of the unique capabilities of the EMIR facilities, or could they be performed at other facilities?
4. Is the requested beam time commensurate with the objectives given in the proposal?
